

SYED AMEEN AMJAD P

MERN Stack Developer | Full Stack Developer

+91 8075901168 | iamameenamee@gmail.com | syedameen.online | github.com/isyedameen | linkedin.com/in/isyedameen | Kannur, Kerala, India

PROFESSIONAL SUMMARY

MERN Stack and Full Stack Developer with hands-on experience building and deploying full-stack web applications end-to-end. Built three full-stack projects — an e-commerce platform, a multi-vendor booking platform, and a personal portfolio — using RESTful API design, JWT-based authentication with role-based access control (RBAC), and MongoDB/Mongoose for data modeling. Comfortable across the stack: responsive UI with React and Tailwind CSS, backend APIs with Express, payment gateway integration (Cashfree), and deployment to AWS EC2. Recently completed MERN Stack training and seeking a Junior MERN/Full Stack Developer role to contribute to real-world, scalable applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js (v19), Context API, React Router (v7), Tailwind CSS, Vite, Axios

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt, Role-Based Access Control (RBAC)

Database: MongoDB, Mongoose (v9), MongoDB Atlas

Tools & Platforms: Git, GitHub, GitHub Actions (CI/CD), npm, Postman, VS Code, Nodemon

Deployment: AWS EC2 (via rsync), GitHub Actions CI/CD

Others: Cashfree Payment Gateway, express-validator, cors, dotenv

EDUCATION

MERN Stack Development — G TEC Computer Education, Kannur (Jan 2026 - Jul 2026)

Bachelor of Commerce (B.Com) in Co-operation — College of Commerce, Kannur (2022-2025) | Backlog papers in progress

Higher Secondary (XII), Humanities — Govt Welfare HSS, Cherukunnu (2020-2022)

PROJECTS

Elegance — E-Commerce Platform

elegance.syedameen.online | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Cashfree

- Built a full-stack e-commerce platform with a catalog of 32 products across 4 main categories and 8 subcategories
- Developed secure JWT-based authentication with bcrypt-hashed passwords, supporting 2 user roles (Admin and User)
- Built product browsing with category filtering, wishlist management, and shopping cart functionality using React and React Router
- Integrated Cashfree Payment Gateway for secure order processing, tested checkout flow multiple times using Cashfree's sandbox environment
- Built an admin panel with features to add/manage categories, products, banners, and orders
- Designed a responsive, mobile-friendly UI using Tailwind CSS
- Deployed both frontend and backend on AWS EC2

Veloura — Salon Booking Platform

veloura.syedameen.online | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Cashfree

- Architected a role-based, multi-vendor salon booking platform with 3 user roles: Customer, Salon Owner, and Administrator
- Built core modules including salon discovery, appointment booking, and role-based dashboards for each user type
- Implemented JWT-based authentication and role-based access control (RBAC) across the backend API
- Built salon discovery with search, filtering, image thumbnails, and detailed service listings
- Enabled appointment booking with dynamic time-slot selection and integrated Cashfree payment processing, tested through sandbox transactions
- Developed dashboards for each role — customers manage bookings, owners manage services and staff, admins oversee the platform
- Built a verified review system where customers with completed bookings can leave a one-time rating and review, filterable by service category
- Automated deployment with a GitHub Actions CI/CD pipeline, pushes to the main branch automatically build and deploy the app to AWS EC2
- Built the backend API with Express.js and MongoDB, structured with a layered architecture (routes, controllers, services, middleware)

Portfolio Website

syedameen.online | React.js, Tailwind CSS, Vite

- Designed and deployed a personal portfolio showcasing projects, technical skills, and professional background
- Built responsive UI with React and Tailwind CSS, with smooth navigation and animations
- Included a project showcase section with filtering, a skills display, and an interactive timeline for education and experience
- Included a contact form for recruiter engagement
- Deployed on AWS EC2
